主题: New Food Steamer and other new products

重要性: 高

Dear Mr. Camy Wong.

Many thanks for your kind attention to our company and the offer of your new well designed Food Steamer product to us.

Per our general consideration through your webpage, we found that you are a perfect company from the first stages of product design till the finished products advertisement.

Your offered Food Steamer product seems great, but would you please let us know why the power rate of this model is too high, is it related to the size or the element of this model? Because power rate of regular food steamer products is around 700~900W, while your Food Steamer's is 1800W.

Anyway, as we recently launch a new food steamer model into our market, any new project in this regard would depend on our market feedback, but we saved your company name in the list of our honored suppliers and for any new project, whether finished product or a new designed product, will contact with you. In this regard if you have any another new designed product, we would be pleased to be informed about it, because here we always welcome all new perfect Electrical Home appliances, at it would be our pleasure to establish a new business with your honored company.

With the best regards.

Vice President & Head Of Projects Centre

E. Jamaldar

Dear Camy/Cecily,

Thank you very much for the attachment. It is really impressive. Once I get the sample and the printed catalogues of all models, I shall be able to do my best. Please let me know, when you are sending.

Best Regards

Antony

Re: Project – Goggle

Dear Alvin,

Thank you for the fast and efficient work for the modification of the rim on the goggle.

They are all OK and acceptable to me. We will forward it to the Italian guy for his perusal and approval.

Please wait a couple of days. Thanks

P. Lo

主题: Re: 2 sales confirmations - Eye brow cutter & comb

Dear Tina,

I do appreciate you being efficient, but I think you must slow down as I must firstly see and evaluate your hand samples, and then see if I have interest from the UK market. This may take some time and I do not expect to have this product available for the xmas trade. If I wanted to meet the xmas trade then I would have had to take orders in August.

Please be patient, otherwise mistakes can be made.

Regards.

Mike
